

APPLICATIONS

Eni Rotra Bike Synth 75W-90 is a top synthetic gear oil with E.P. characteristics, specifically dedicated to the lubrication of gearboxes and final transmissions of motorbikes and scooters.

CUSTOMER ADVANTAGES

- **Eni Rotra Bike Synth 75W-90** is able to guarantee an optimal lubrication in all operating conditions, ensuring complete protection of gears and all other mechanical parts of the transmission.
- The characteristics of **Eni Rotra Bike Synth 75W-90** allow an easy start also in difficult climatic conditions (low temperatures), besides contributing effectively to fuel saving in all operating conditions.
- The premium synthetic basestocks used in the formulation have an exceptional oxidation stability, thus ensuring protection against the formation of lacquers and deposits, and allowing prolonged oil drain intervals according to the indication of the vehicle manufacturer.
- The high thermal stability of **Eni Rotra Bike Synth 75W-90** is able to maintain the product characteristics, even after long running periods at high temperatures.

SPECIFICATIONS - APPROVALS

- API GL-4 + GL-5

CHARACTERISTICS

Properties	Method	Unit	Typical
Density at 15°C	ASTM D 4052	kg/m ³	850
Viscosity at 100°C	ASTM D 445	mm ² /s	16.0
Viscosity Index	ASTM D 2270	-	160
Viscosity at -40°C	ASTM D 2983	mPa·s	127000
Flash point (COC)	ASTM D 92	°C	200
Pour point	ASTM D 97	°C	-48
